

NAVAL SCHOOL CIVIL ENGINEER CORPS OFFICERS  
NEW THESES - ACQUIRED FOR MOREELL LIBRARY- 1987-99

- Academic interface at the new University of Florida water reclamation facility / John D. Puglisi / May 1992, rev.
- Accident prevention through effective safety management / Robert G. Fahey / Summer 1992
- Activated carbon cloth regeneration with electrical resistance heating / Brett A. Covington / 1994
- Adverse climatic conditions and impact on construction scheduling and cost / Robert J. Sachuk / Summer 1988
- Alachua County southwest landfill gas production as a function of time / Gerald Rollin Manley / May 1992  
(a non-thesis project)
- Allocation of risk through construction contract provisions and practice / Troy M. McClelland / July 1996
- Alternate sites for a connecting passage between the Atlantic and Pacific oceans / Samuel J. Pena / August 1990
- Alternative dispute resolution for U.S. Navy construction contracts / Jerome Paul Rakel / [1990]
- Alternative dispute resolution in the construction process: a course of study for construction managers /  
Douglas Gray Morton / November 1988
- Analysis of accidents related to scaffolding and floor/wall openings / John Vincent Heckmann, Jr. / 1995
- An analysis of availability factors used in Naval Mobile Construction Battalion project planning /  
Mark Reynolds Libonate / December 1993
- Analysis of chilled water free cooling at the Perimeter Center Office Park (Atlanta, Georgia) / Kathleen O'Neill /  
December 1991
- An analysis of construction activities in the Piney Grove Area and the impact of the Kinley Creek Watershed,  
Lexington County, South Carolina / John C. Alberghini and William C. Newton / June 1995
- Analysis of contract modifications on military construction (MILCON) projects administered by the U.S. Naval  
Facilities Engineering Command / Hector Armando Arellano Jr. / December 1995
- Analysis of design changes on Navy construction projects / Michael K. Westmoreland / December 1991
- Analysis of direct and indirect impact costs attributed to the wetlands regulatory programs of the local, state and  
federal government of the United States / Joseph A. Angell / December 1991
- Analysis of Hollinshed Watershed using GIS software / Michael Hipp / Aug. '99 / U. of S. Carolina
- Analysis of initial concrete testing in relation to expected performance / Vincent Racanelli / Summer 1993
- Analysis of knowledge-based expert systems as tools for construction design / Arthur N. Cole / March 1991
- Analysis of life cycle cost concepts and their implementation by the Naval Facilities Engineering Command /  
Stanley W. Wiles / July 1997
- Analysis of modification types in Navy construction contracts / William J. Prout / Summer 1998 (with disk)

Analysis of outsourcing of construction management services for the Naval Facilities Engineering Command / Edward S. McGinley, III / July 1997

An analysis of pollution prevention efforts for ships homeported at Norfolk Naval Base, Norfolk, Virginia / Cynthia J. Manning / July 1995

An analysis of source selection procedures for engineering support services contracts / Kenneth D. March / December 1989

Analysis of state transportation agency methods for determining contract duration / Michael P. Savage / Spring 1988

An analysis of the Department of Defense deregulated electricity contract / Robert E. Lin / August 1998

An analysis of the Navy's alternative disputes resolution program / Kreg R. Everleth / Summer 1998 (with disk)

An analysis of the remediation systems on the contaminant plume at the Plainville landfill / Renee L. Woodworth / May 1999

Analysis of the Tri-service Pollution Prevention Program, comparison of characteristics, and recommendations for improvement / Roy W. Hann, Jr., Timothy P. Cowan /

Analysis of trench drain systems beneath foundations / Chris M. Willis / August 1989

Applications of bar code technology in the construction industry / William George Grip / August 1991

Applications of Geographic Information Systems in Public Works / Kevin P. O'Connor / Summer 1995

Asbestos abatement industry - "A Seattle/Tacoma study" / Brian M. Scott / 1988

Asbestos removal in the construction industry / Albert J. Banks / Fall 1991

Assessment of short span bridge materials / John R. Brown / 1990

An assessment of the environmental impacts from the discharge of bilge water in the Norfolk Naval Station harbor / Charles Kirk Wilson / August 1991

An assessment of the Naval Facilities Engineering Command's investments in research and development / Zane Alan Myers / June 1989

Automated excavator study / James D. Cruz / July 1990

Bankruptcy and business failure in the construction industry / Eric C. Milner / August 1987

A basic guide to overlay design using nondestructive testing equipment data / Vernon R. Turner / August 1990

Best practice influence on project changes during the construction phase / Brian Douglas Ciaravino / August 1998

Bioremediation of contaminated soils using THE WHITE ROT FUNGUS *phanerochaete chrysosporium* / Michael S. Douglas / April 1995

Building for energy conservation / Robert E. Merton / Summer 1988

CD-ROM: Library of the future / Kenneth P. Butrym and Hagop A. Avedissian / 1988

CPM scheduling: the contracting officers' guide for risk minimization and claims analysis / Craig S. Prather / Summer 1998 (with disk)

Calculation of contaminant concentrations while coating the interior of a bulk storage fuel tank / Gail Maureen Haberlin / May 1990

Case study of Alachua county detention facility renovation / Peter F. Moran / Summer 1994

A case study of habitat for humanity / Robert E. Andres / Summer 1994

A Case study of two computer methods used to simulate fires in industrial facilities / Christopher Asselta / October 1997

A case study of water distribution management options for the reduction of trihalomethane formation at the U.S. Naval Station on the island of Santo Stefano, Italy / Barry C. Sass / May 1998 (with disk)

Claims and changes, an overview in the Seattle area / William H. Shirk / 1989

The closed-loop control of a three-phase inverter using a DSPACE DS1102 DSP board / Derek P. Frasz / December 1998

A comparative analysis of work-hour forecasting techniques at the crew level / James M. Pace / December 1989

Comparative study of design methods for two-way reinforced concrete slab systems / Robert H. Gibbs / December 1990

A comparison between the American Institute of Architects' and the United States Navy's construction contract general provisions / Scott A. Hayward / Fall 1992

Completion cost trend analysis / John T. Baker / July 1990

Computer aided design of soldier pile and lagging retaining walls with tieback anchors / Kevin J. D'Amanda / Fall 1991

Computer assisted estimating of steel fabrication and erection / Christopher D. Reiling / Summer 1987

A computer simulation of a hyperbaric chamber environment / Scott Robert Lister / December 1992

Computer simulation of the underwater detection of sperm whales using modifications of line transect theory / Anne M. Werner / August 1993

A concise guide to effective management of the public works equipment fleet / Vicente De Armas / Summer 1996

Constructability improvement: making effective use of construction lessons learned / Robert H. Morro / 1991

Construction contract claims and methods of avoiding contract litigation through dispute resolution alternatives / Joseph C. Lavigne / Summer 1993

Construction contract durations / Michael D. Thornton / 1988

Construction equipment emerging technologies: Fuzzy logic controllers / W. E. Bennett / November 1995

Construction management training in the Navy Seabees / Steven G. Challeen/ 1992

The construction of professional sports arenas: funding and politics / Howie Scot Ferguson / Summer 1996

Construction planning: residential housing built with volunteer labor / Michael J. Dolan / 1992

Construction productivity improvement at a Construction Battalion Unit / Mary J. Helinski / 1995

Construction tool management / Cannon L. Morse / July 1990

Construction worker motivation the means to improving worker productivity / Edward Gonzalez / Summer 1991

Construction workforce 2000 / Mark E. Van Vleck / Summer 1991

Contingency construction planning in the U.S. Armed Services, including the extent of modular construction / Christopher H. Kiwus / August 1990

Contract administration of Department of Defense Environmental Restoration contracts / J. H. Edwards / September 1992

Contracting methods and management systems of remedial action contracts within the U.S. Navy's installation restoration program / Darius Banaji / September 1993

Control of dental amalgam in wastewater at the Naval Dental Clinic, Norfolk, Virginia / Ralph G. Snow / December 1993

Controlling growth around naval air stations: a transferable development rights model for Naval Air Station Cecil Field, Jacksonville, Florida / Manuel Delgado-Ruiz / 1993

Cost analysis of cost plus award fee contracts / Bruce C. Nevel / Summer 1997

Cost models and the Corporate Information Management Initiative / David P. Faulk / March 1991

Crime prevention through environmental design (CPTED) and the role of facilities planning in force protection / Juliana S. Prevatt / December 1998

Current practices to decrease subcontractor bid shopping in the public sector / John R. Stevenson IV / Summer 1993

Curriculum study of public works management / John M. Ellwood / 17 June 1999 (Includes disk)

Custom residential housing construction: a case study / Mark W. Jackson / Summer 1994

Decision maker's guide to issues effecting post-closure reutilization of municipal solid waste landfills / Robert W. Ganowski

Demand, Energy, and Power Factor/ Michael J. Gough / August 1994 (Includes video with same title)

Deployment of Total Quality Management in Navy Public Works Centers / Cynthia Louise Lytle Hunt / August 1994

Design and construction of an experimental filament winding machine / Mark G. Lutkenhouse / May 1993

Design-build contracting in the navy / Jay A. Murphy / University of Florida / Civil Engineering / Summer 1999 (Includes disk)

Design-build partnership attributes survey analysis / Raymond A. Pyle / August 1998

Design input index as a predictor of project change behavior / Stephen S. Bell / August 1991

Design of a bottom impermeable barrier in conjunction with a contaminated site containment structure / Nick L. Peterson / May 1994

Design-build contracting in the Navy / Jay A. Murphy / Summer 1999

Designer and constructor practices to ensure life cycle performance / Joelle L. Shelton / August 1998

Determination of the hydraulic conductivity of the Alachua County Southwest Landfill / Kimberly Louise Shank / 1993

The Determination of Wave Group Parameters from the Resolution of Incident and Reflected Waves / Gregory E. Selfridge / Mar 1995

Development and testing of rapid repair methods for war damaged runways / Paul A. Soares / 1990

Development of a design method for glass windows subject to blast loadings / Daniel T. Magro / August 1993

Development of a Human and Organizational Factors (HOF) Annex for underwater welding / Shawn Cullen / December 1997

Development of design parameters for H-Piles in sand using static analysis / Ronald Ungaro / May 1988

Development of predictive equations based on pavement condition index data / C. V. O. Floro / March 1992

Disaster preparedness planning and facility contingency operations for public works / David J. Major / Fall 1993

Diver operated tools and applications for underwater construction / Robert R. Saltsman / Summer 1987

Dust control on low-volume roads: A review of techniques and chemicals used / Gregory D. Lunsford / August 1998

Dynamic water wave pressures on a recurved model seawall / Gregory Ross Rismiller / August 1989

The effect of contract remuneration on construction project performance factors / John Joseph Nesius / August 1998

Effect of rail switching on intermodal transfer capacity / Scott Killinger / August 1990

The effect of team building practices on safety performance / Marshall Troutman Sykes / August 1998

Effective cost control for contractors / Gary W. Gunther / Fall 1989

Effects of colloids, flocculation, particle size, and organic matter on the adsorption of hexachlorobenzene to sediments / Robert Tye / June 1995

Effects of non-linear partitioning behavior on NAPL characterization via partitioning tracer tests / Elizabeth A. Fitzpatrick / 1996

The Eichleay formula in Naval Facilities Engineering Command (NAVFACENGCOM) contracting / Shawn J. Bergan / July 1994

Elastic second-order computer analysis of beam-columns and frames / Hermogenes R. Munoz / August 1991

Electromagnetic launchers for use in aircraft launch at sea / Aaron Michael Still / May 1998 (with disk)

"EMERITUS" an Engineer-Manager's Evaluation, Review Improvement Tool / M.P. Doyle / 1990

An empirical analysis of the effectiveness of design-build construction contracts based upon projects executed by the Naval Facilities Engineering Command / John W. Mouritsen / August 1993

An Empirical analysis of United States Navy Design/Build Contracts / Michael Bernard Roth / August 1995

Employing an effectiveness model for calculating cooling tower performance / John D. Rice / December 1991

Energy efficient practices, products and programs for buildings / John T. Barton / Fall 1998

Environmental and economic impact of underground storage tanks in the United States and Territories / Cleve R. Helvey / December 1992

Environmental contamination at small arms ranges / Antonio Michael Edmonds / December 1993

Environmental issues associated with the Department of Defense Base Realignment and Closure (BRAC) Program / Craig Stephen Hamer / August 1993

Environmental management systems / Kristina M. Nielsen / August 1998

Environmental Regulations: Impact on the United States petroleum exploration and production industry / James Leslie Hardin / December 1993

Equilibrium beach profile measurement and sediment analysis: Mustang Island, Texas / Erick B. Knezek / December 1997

Estimating indirect costs of injuries to construction workers / James R. Van de Voorde / 1991

Evaluating a hazardous waste site: examining the potential for migration of contaminants / Kimberly K. Stricklan / November 1991

Evaluating the perception of design errors in the construction industry / George Neil Suther / Summer 1998 (with disk)

Evaluation and repair of concrete slabs / Robert W. Siegfried / Summer 1992

Evaluation of a new laboratory acoustic doppler velocimeter / Gary Neil Underwood / December 1994

Evaluation of charred porous polymers as a method of storm water pollution prevention for shipyards / Gordon E. Clark, Jr. / August 1998

An evaluation of computerized scheduling in construction contract specifications / Brian K. Harris / Summer 1989

Evaluation of project selection techniques for pavement network maintenance and repair / Thomas L. Wood / July 1994

An evaluation of the effectiveness of a best management practices (BMP) plan implemented at an outdoor rifle range / Robert Lyle Gersh / August 1997

Examination of street lighting practice in Gainesville / Christian Decker / Summer 1989

An Examination of the effectiveness of partnering in Navy construction contracts / Scott Lowe / July 1994

An Examination of the requirements for fill materials included in guide specifications / Karsten Matthew Koch / August 1999 / The University of Texas at Austin.

Excellence in Public Works Centers in the United States Navy / Mark E. Kistner / December 1987

Expert systems, a primer for the construction manager / Henry V. Dobson / Summer 1990 (2 c.)

An exploratory study in the construction industry on the efforts being taken to minimize contact with overhead power lines / Scott Hinton / Summer 1993

Evaluation of a New Laboratory Acoustic Doppler Velocimeter / Gary Neil Underwood / December 1994

External causes of small construction firm failures / T. J. Foust / 1989

Facility Response Plan / Irene Addison and Kelly McCarthy / October 1993

Fate and transport of trichloroethane and trichloroethylene contaminated groundwater, Building 719, Dover Air Force Base, Delaware / Kenneth J. Melchiorre / August 1996

Fate and transportation of landfill contaminants, Naval Amphibious Base Little Creek, Virginia / James M. Conroy / December, 1993

Feasibility for application of soil bioengineering techniques to natural wastewater treatment systems / Anthony James Cox / December 1992

Feasibility of a blast wave attenuation structure / Dale Richard Hartmann / 1998

Feasibility of a jet-stirred reactor for evaluating replacements for halon fire retardants / Jon Cybulski / Dec 1994

Federal agencies and design/build contracting / James R. Berger / July 1991

Federal construction contract award by mean bid / G. E. Taylor / 1992

Federal government liability for safety during the construction process / Thomas F. Dreyer / August 1984

Field measurements of local pier scour in a tidal inlet / Wayne O. Walker / 1995

A financial decision support system for U.S. Navy public works departments / S. Keith Hamilton / December 1989 (3 c.)

Financial management for construction contractors / Chris J. Lacaria / Summer 1994

Formic acid: development of an analytical method and use as a process indicator in anaerobic systems / Sharon L. Perkins / March 1992

Full field strain measurement in welds / Franklin Thompson Duvall / 1998

General construction contractor bidding strategy variations based on market conditions / Ronald S. Barr / March 1990

Goleta sewer outfall stability tests / Scott D. Bailey / Oct. 19, 1992

A guide for the prospective navy contractor / Cameron Alan Manning / Summer 1991

- A guide to resolving disputes over defective specifications / S. M. Wirsching / 1992
- A guide to soil reports and differing site conditions for construction professionals / R. Martin Pondelick / December 1990
- Hazardous waste minimization in the semiconductor industry / David G. Gilles / April 22 1992
- Hazardous waste reduction Naval Air Station Oceana / E.A. Clarkson / June 1991
- Health care facilities construction and maintenance: A study of construction and maintenance activities, needs, and procurement policies of the health care industry in the United States / Eric Lee / 1997
- Heat transfer performance of a roof-spray cooling system employing the transfer function method / Joseph A Clements / 1993
- Heavy metals and the petroleum industry / Katherine D. Ware / May 1993
- Historic preservation and cultural resource management at Norfolk Naval Shipyard, Portsmouth, Virginia / LT La Tanya E. Simms / 1999 / University of Florida / MA in Urban and Regional Planning
- Historic preservation, history, and the African American discussion and framework for change / J. C. Washington / March 6 1992
- Hot-in-place recycling of asphalt pavements / Michael Lawrence Dowdy / August 1987
- Human factors in diving / Michael A. Blumenberg / December 1996
- Hurricane preparedness of Navy family housing / Thomas F. George / Summer 1996
- Hydraulic modeling and economic optimization of hollow fiber membranes / E. S. Odderstol / August 2, 1991
- Hydrogeological evaluation of South Water Cay, Belize / Damian A. Colden / August 1990
- Identifying problems encountered when contracting with the Naval Facilities Engineering Command / Donald E. Whitehurst / Autumn 1991
- The impact of accounting methods on cost reduction rates in defense aerospace weapons system programs / Peter B. Melin / December 1988
- Impact of change orders on mechanical construction labor efficiency / Paul Joseph Vandenberg / 1996
- Impact of incentives on project performance / Jayson Doliber Mitchell / August 1998
- Impacts of freshwater impoundment in the West Lock of Pearl Harbor / Richard P. Sauerwein, Jr. / May 1993
- Implementation of total quality leadership in U.S. Naval Construction Battalion Units / Antonio Crusellas / December 1995
- Improving future construction project quality through analysis of completed contract documentation / Kenneth .C. Stagg / Summer 1992
- In-house vs. contracted work forces: A comparison of NPWC Pensacola and NPWC Jacksonville / Donald B. Campbell Jr. / Summer 1996

In-line treatment of metal contaminated storm water by charred microporous polymers / John Anthony Kliem / August 1998

Inactivation of pathogenic microorganisms in infectious medical waste: a literature review of current on-site treatment technologies / Anthony DiDomenico / 1992

Incentive measures for navy working capital fund civilian employees at Naval Air Warfare Center, Aircraft Division, Patuxent River, Maryland / Clifton G. Ross / December 1998 (with disk)

Incentive pay programs in the construction industry / R.P. Hovell / 1990

Increased construction productivity through enhanced personnel initiatives / John P. Oliver / Summer 1990

An information framework for facility operators / James P. Beckett / August 1991

Infrastructure systems and the cost of ownership / Randall G. Ortgiesen / August 1991

Inspection methods for underwater cables / Robin Young Noyes / Dec 1994

Insurance requirements and costs in the construction industry / J. Kyle Hansen / 1990

Integrated architectural design and construction system / John W. Zink / September 1988

An integrated facility for municipal solid waste disposal, electrical generation, and desalination / Gregory Hanby / August 1995

Interaction equation values for wood truss compression chords considering the effects of partial composite action / Patrick J. Gibbons / December 1991

An investigation into computer simulation of the dynamic response of a gas turbine engine / Todd B. Henricks / July 1997

An investigation into current construction engineering and management programs and curricula and their applicability to the U.S. Armed Forces / Brad Beisswanger / August 1988

An investigation into fraud and unethical conduct in the construction industry / Jim Gentry / December 1990

Investigation of computer vision methods for the building construction process / Donald J. Wallace / 1988

Investigation of fall protection for residential roof construction and repair in Hawaii / Holly M. Johnson / August 1997

Investigation of legal criteria governing notice requirements and oral change order disputes / Dennis E. Wright / 1989

An investigation of the legal criteria governing differing site conditions disputes on construction contracts / James E. Teahan / December 1989

Investigation of the public owner's liability and responsibility in construction contract injury prevention / Dirk E. Berry / May 1990

Issues surrounding the design/build delivery system for construction contracts / Peter S. Lynch / July 1995

Kealakaha Stream Bridge Replacement Project seismic instrumentation plan / Todd W. Stephens / 1989

Laboratory evaluation of geotextile performance in silt fence applications using a subsoil glacial origin / Cory Crebbin / 1988

Landfill gas characterization and leachate removal at the Alachua County Southwest Landfill, Alachua County, Florida, through utilization of a mechanical gas collection system / Kurt R. Gies / 1994

A leachate recycle management and pollutant loading strategy at codisposal landfill sites / Stephen F. Tyahla / July 1989

Legal aspects of safety in construction / Lisa B. Freeland / 1992

Legal aspects of the design build method of construction delivery / Mark A. Terrill / August 1998

Lessons learned in the use of design/information technology in the non-residential construction industry / John Darnell Spencer / August 1999 / University of Texas at Austin

Liabilities and responsibilities of the construction manager for implementation and management of the safety program / Richard D. Roth / December 1987

Liability of design professionals for the preparation of cost estimates / John J. Adametz / August 1997

Liability of design professionals for the review/approval of contractor submittals / Richard C. Taylor / August 1996

Logic flow diagrams for planning of building projects / Jeffrey Clinton Furman / August 1999 / U. of Texas, Austin.

A Literature review of methods to determine road user costs in construction zones / Richard S. Schnabel / Fall 1997

Metal building construction using the MIC-240 ABM K-Span machine / Kevin L. Roye / Fall 1996

Metal building systems / Kevin E. Mikula / Summer 1988

Microcomputers in public works / Merritt W. Pedrick / Fall 1989

Minimizing and analyzing construction delay and its impacts: case studies and knowledge-based systems / Steven G. Bertolaccini / May 1989

Mobile Treatment Modules for the Rhode Island Environmental Training Center / David Herriott / December 1994

Modeling *Cryptosporidium* ssp. oocyst inactivation in bubble-diffuser ozone contactors / Robert Tomiak / July 1998 (with disk)

Modeling of the seepage flux of ground water from coastal landfills / Damian A. Colden / 1990

Motivation factors of construction personnel in a United States Naval Construction Battalion Unit / Rodney Michael Moore / August 1995

Motivational and productivity factors that influence the Naval Construction Force / Timothy W. Burns / August 1, 1990

Municipal waste incinerator Public Works Center, Yokosuka, Japan : evaluation and recommendations / Wade B. Wilhelm / April 1993

Municipal wastewater privatization: An alternative with solutions for infrastructure development, environmental compliance, and improved efficiency / Roger F. Wakeman / August 1998

NAVFAC safety performance and the use of best practices to reduce lost workhours and accidents / James Treacy Stone, May 1998

Naval Facilities Engineering Command (NAVFAC) field office readiness / James J. Boudo / University of Florida / Civil Engineering / Summer 1999

The Naval Reserve Center Facility Management System / Michael E. Durant / May 1993

Navy construction contract regulations vs. The Board of Contract Appeals / Thomas David McMurray / December 1987

The Navy Public Works Center San Diego craftsmen productivity analysis / Scott Jacob Waidelich / May 1997

Negotiating engineering and construction contracts / William E. Dunning / Fall 1992

Neural networks and non-destructive test/evaluation methods / J. D. Draper / 1992

New initiatives in public/private contracting under the build-operate-transfer model / Michael W. Armes / Summer 1996

Non-Gaussian properties of waves in finite water depth / David J. Robillard / 1996

Non-Newtonian temperature and pressure effects of a powder lubricant slurry in a rotating hydrostatic step bearing / Wm. E. Finn / 1993

Nonpoint pollution discharge permit testing and control strategies at Naval Air Station Whidbey Island / Kevin G. Vogelsang / 1991

Northwest construction contractors' substance abuse policies and practices / Darryl K. Creasy / Autumn 1995

Northwest general aviation airfield pavement performance equations / Stephen L. Alm / August 1996

Numerical analysis of the photo-dissociation/radical oxidation of formaldehyde by ultraviolet light in a photolytic reactor / Robert O. Fetter / December 1993

Numerical simulation of evaporating capillary jets / Jason D. Zeda / Mechanical Engineering / August 1999 (Includes disks)

Oil and hydrocarbon spill bioremediation product and application technologies// Mark Richard Deibert / May 1993

On-site construction productivity improvement through Total Quality Management / David B. Cortinas / December 1991

On-site incineration of contaminated soil: a study into U.S. Navy applications / Thomas C. Reeves / August 1991

Operational analysis of a plunger-type wavemaker and design of a diffraction experiment on a detached breakwater / Steven Thomas Zimmerman / December 1995

Optimization of suspended solids removal from coal-ash laden wastewaters / Gary Schafran / 14 June 1991

Overview and analysis of the U.S. Navy elevated causeway system / H. L. Groff / July 1992

An overview of a base operating support contract for facilities operations and maintenance in a Public Works Department under the Naval Facilities Engineering Command / Carmelo Melendez / Spring 1996

An overview of direct push technology / John Weger / August 12, 1994

Owner/contractor partnerships in construction / Steven R. Dupes / 1989

Oxides of nitrogen: Their formation and control in stationary sources / Sonja P. Pedrozo / April 24, 1994

Parametric estimating: an equation for estimating buildings / Robert J. McGarrity / September 1988

Partnered project performance in the U.S. Naval Facilities Engineering Command/ Kelly Joseph Schmader / August 1994

Partnering / Mark Cunningham Ashley / June 1991

Partnering at the Naval Facilities Engineering Command / Ben D. Pina / July 2, 1993

Partnering in the public sector / William Malcolm Sheedy / 1997

Perceptions and influence of project labor agreements on merit shop contractors / Ian C. Lange / December 1997

Performance bonds under the Federal Acquisition Streamlining Act (1994) / Gary A. Tave / June 1997

Performance of energy management control systems (EMCS) in selected Texas LoanSTAR buildings / Michelle M. Schmode / August 1995

The performance of low-rise open span heavy steel structures in extreme winds / Joe R. Charlton / Jun 1997

Phosphorus removal mechanisms at the Yellow River Sweetwater Creek Water Reclamation Facility, Gwinnett County, Georgia / Jeffrey T. Borowy / Spring 1994

Planning and management of aircraft pavement construction / Timothy Smith / Summer 1993

The post cold war Civil Engineer Corps: what has changed and why / Tony L. Ammons, Jr. / December 1997

Pre-project planning of capital facilities at NASA / LCDR Benjamin John Barrow / December 1999 / MS Engineering / University of Texas at Austin

Privatization in the U.S. Navy / Stuart E. Perritt / Summer 1990

Problems associated with lead paint removal in the construction industry / William H. Bensinger / Summer 1993

Procedures, responsibilities, and guidelines for the effective closing of military installations / LT Douglas McCutchen / Fall 1998 / University of Florida , MS Engineering.

Procedures to predict vertical differential soil movement for expansive soils / Donald David Naiser, Jr. / December 1997

The process of residential real estate development / Thomas M. Boucher / Summer 1993

Professional construction management for the United States Naval Construction Force / James Joseph Cummings / Summer 1994

Project cost increases due to risk and need for work premiums: an empirical study of bidding in the construction industry / Daniel P. King / May 1990

Public-private ventures in bachelor quarters: a solution to the loss of military construction projects / Trevor L. Neve, Jordan W. Cassell, and Robert L. Crosslin / June 1990 (4 vols.)

Public sector application of real estate analysis and finance techniques: A feasibility study for military family housing / Robert W. McDowell III / November 1994

Public Works Department metrics for Keflavik, Iceland / Charles Witta / August 1997

Push-pull test for IN SITU determination of microbial metabolic activities: denitrification and methanogenesis / Paul James Odenthal / September 1995

Qualifications based selection policy implications for Naval facilities / Gregory Alfred Garcia / December 1996

A quality control program analysis for modular housing / Matthew S. Gass / December 1989

A Quality management evaluation of the graduate education process for ocean engineers in the Civil Engineer Corps / William Anthony Oster / December 1993

Radio frequency data communication applications in the construction industry / Michael N. Rieger / July 1989

Radon detection and remediation in Navy family housing / Robert N. Morrison / Summer 1994

The redevelopment of the Charlestown Navy Yard : a model for the military base closure process / Scott Philip Calisti / 1992

Reimbursing contractors for changes in the work / Gary R. Leach / December 1993

Reinforced concrete wall form design program / Leo D. McKinley / 1992

Remediation of lead contaminated soil at Greenbury Point Annapolis, MD / Kathryn A. Stewart / April 1997

Remediation technologies for environmental projects in the United States military: Part II / Joseph Aloysius Campbell / May 1998

Removal of cadmium and chromium from a pretreated wastewater with reverse osmosis / Karen Marie Zapp / May 1992

Removal of copper and iron contamination from chromic acid electroplating baths using electrodialysis with caustic catholyte / J. T. Sommer / 1991

Repairs to concrete port and harbor structures / Max D. Rodgers and James M. Schofield / November 1991

Resilient performance of controlled density fill in utility trench excavations / Darin V. Lasater / 1990

Resource Planning and Resource Allocation in the Construction Industry / Charles E. Memdoza / Summer 1995

The Re-Utilization of concrete waste materials / Kenneth R. Kruciak / Sum 1994

A review of vapor extraction technology for contaminated soil remediation / Allan M. Stratman / May 1993

Risk allocation in construction contracting / Bruce C. Babchuck / Fall 1992

Risk analysis and management of diving operations: assessing human factors / Timothy C. Liberatore / November 1998

A Risk and pay factor analysis of Washington State's Dept. of Transportation 1994 standard specification / Homer Clay Phillips / July 1995

Risk-Based Corrective Action (RBCA) at petroleum contaminated sites: The Rationale for RBCA and natural attenuation / Hope Katcharian / August 4, 1997

Risk in construction subcontracting / Deborah E. Roe / August 1997

Safety and stability in concrete barrel shell roof structures / David Frederick Kelley / October 1991

Safety practices of large construction firms / William G. Eich / 1996

Sanitary considerations for contingency operations / Allen P. Davis / June 1997

Satisfaction with arbitration: a survey of participants / Robert Eugene Schenk / August 1988

Seismic effects on the design of geosynthetic-reinforced earth retaining structures / Jeffrey J. Carter / July 1998 (with disk)

Sequential nitrification/denitrification in subsurface flow constructed wetlands: a literature review / Frank W. Titus / December 1992

Shipboard oil-water separators used for the treatment and disposal of ship's bilge-water / Karyn M. Rinaldi / December 1995

Signal-to-noise ratio and bit shift estimates of FSK telemetry signals / John M. Senyard / September 1987

Slope reinforcement design using geotextiles and geogrids / Darrell M. Setser / 1990

Socioeconomic impact of infill drilling recovery from carbonate reservoirs in the Permian Basin, West Texas / Bryan Keith Jagoe / May 1994

Soil improvement through vibro-compaction and vibro-replacement / Christopher J. Griffith / June 1991

Solid waste recycling / John M. Potter / July 1990

Special growth of hurricane generated seas / William Scott Finlayson / 1997

Standardizing construction between industry and government / Nicholas C. Cimorelli / December 1987

Standards and benchmark tests for evaluating large scale manipulators with construction applications / Mark Edward Wiersma / December 1995

State-of-the-art soil improvement techniques / Keith Douglas Berndt 1989

Statistical evaluation of airport pavement condition survey data for Washington, Oregon, and Idaho / Kim Weisenburger / 1988

Steam remediation of contaminated soil: a simulation study / William R. Schoen / Dec 1994

Strategic bidding for contracts by officer in charge of construction, Naval Facilities Engineering Command Contracts Jacksonville area, Jacksonville, Florida / Mark K. Cho / Summer 1993

Stress Distribution in Welded Flange-Bolted Web Connections / Garth B. Berninghaus / Mar 1995

Structural assessment of pile supported piers / Richard Jay Keiter / February 1999

A study of construction contract delay: causes and impacts / Christian N. Dawkins / August 1987

A study of construction contract modification: causes and impacts / Donald H. Gatchalian / August 1990

A study of design-build construction and its place in public contracts / Mark Howard Hovatter / Summer 1993

A study of leachate generated from construction and demolition landfills / Beth A. Melendez / August 1996

A study of nuclear power plant construction in the United States / Robert P. Walden / Summer 1991

A study of the agency construction management method of project delivery as a viable alternative when building new schools / Ronald A. Weinert / August 1989

A study of the domestic base closure process: from the 1980's to the present / Charles E. Cassidy / Fall 1992

A study on the effects of foremen on safety in construction Robert P. Hymel / Summer 1993

A study of the U.S. Navy's family housing program and privatization: methods, proposed broadened authorities, and risk analysis / David John Sasek / August 1995

Surety bonds and sureties in the construction industry / Mark F. Openshaw / Summer 1992

Survey of productivity in the construction industry: measurement and causes / Peter Morris Arn / December 1987

Survey of wash racks at Naval Base Norfolk / Frederick F. burgess III / July 1996

A synthesis on the evolution of the studded tire / Michael J. Angerinos / August 1998

Technical merits and leadership in facility management / Jerry J. Shoemaker / Summer 1997

Telecommuting/ Thomas W. Cunningham / Summer 1995

Three-phase dynamic displacement measurements of relative permeability in porous media using three immiscible liquids / Lee W. Thomas / 1991

Tilt-up construction / Richard E. Crompton / Spring 1992

Timber vs. composite/plastic pile fender systems in Pearl Harbor maintenance cost comparison / Joseph Alling / December 1996

Time in construction contracts: a comparison of selected general conditions provisions for construction contracts as used by various public and private agencies / Bryce C. Coleman / August 1990

Time-cost relationships in construction / Robert D. Baker / Summer 1991

Total quality leadership: creating a quality culture / John D'Angelo Jr. / July 1995

Total quality management and applications to the construction industry / Jeffrey M. Salter / Summer 1993

Total quality management in construction / Charles C. Miller / Summer 1993

Trenchless excavation construction in Federal contracting / Scott K. Higgins / August 1994

A trucking primer for the Public Works community / Robert R. Pete / 1989

A tutorial expert system for federal government notice requirement disputes / Robert J. Bullock / May 1989

United States Naval Mobile Construction Battalion Material Resources Planning: a critical investigation / Robert M. Carr / December 1987

U.S. Navy infrastructure: planning, budgeting and acquisition at Naval Submarine Base New London / Brian K. Moore / September 1997

Use of aquatic plants in wastewater treatment: a literature review / Bruce A. Hastie / December 1992

Use of injection grouting/grouted metal ties to improve seismic retrofitting of unreinforced masonry (URM) buildings / Gordon B. Fox / August 1995

Use of life cycle costing in the development of standards / James M. Underwood / December 1988

The Use of Seabees to perform maintenance and repair on naval facilities in the Continental United States / Walter M. LeNoir, III / 1996

Using electronic spreadsheets to solve engineering problems with an introduction to expert system techniques / Robert D. Gilmore / Fall 1988

Utilization of a PC for finite element modeling / Robin A. Collins / August 1989

Utilization of advanced journeyman training in the U. S. Naval Construction Force / Steven John McGrey / August 1997

Utilization of coal fly ash / Susanne C. Openshaw / Summer 1992

Validation of an automated torsional and warping stress analysis program / Stephen Mark Assinari / August 1992

Water quality baseline study and non-point source pollution analysis on Waikele Stream, West Loch Estuary, Oahu, Hawaii / Eduardo P. Manglallan / December 1994

Water quality management of bilge wastes at Pearl Harbor, Hawaii / Scott Bernoras / December 1992

Water reclamation using an enhanced scalable wastewater treatment package unit / Lance J. Edling / University of Hawaii / Civil Engineering / August 1999 (Includes disk)

Waterproofing underground concrete structures / Tim Biggins / Summer 1990

Weld strength and crack growth ductility from the Lazy-L Test / Chad Matthew Brooks / May 1995

Work-related injury frequency rates in the Navy Seabees / James R. Van de Voorde / 1991
